

Offer Top-Notch Streaming Video To Your Clients... Tomorrow

Imagine the possibilities... if you could easily add the power of online video to your portfolio of services. Help your clients to:

- ⇒ Increase sales conversion rates dramatically
- ⇒ Grab visitors' attention
- ⇒ Differentiate their websites
- ⇒ Provide online training and education

FastPitchWeb makes it possible. **FastPitchWeb** is amazingly flexible, enabling video to fit in beautifully and seamlessly onto new or existing web pages. Make web pages come alive!

FastPitchWeb is a new hosted streaming video service for businesses. What does that mean?

- **“Hosted”** means FastPitch handles all of the technical aspects and hosting
 - ⇒ No changes to your clients' existing website hosting is needed
 - ⇒ No back-end video expertise is required of your organization.
- **“Streaming”** means
 - ⇒ No waiting – visitors won't have to wait to see your clients' video message
 - ⇒ Security – viewers cannot download the video to their computers
 - ⇒ Video clip, or clips, can be of virtually any length
- **“Service for businesses”** means FastPitch was designed to solve business problems
 - ⇒ Increase ROI
 - ⇒ Receive reports on user metrics
 - ⇒ Conserve webpage real estate – offer many clips in one spot on the page

FastPitchWeb offers a number of unique and powerful features, including:

- ⇒ **key information synchronized with your video...** a slide presentation to accompany a talk, or a call to action timed for maximum response. **Request a FastPitchWeb demonstration** – Email Resellers@FastPitchWeb.com
- ⇒ **Flexible configuration** – layout, size, controls and features are easily customized to meet your clients' business needs

Use **FastPitchWeb** for existing video or take advantage of our turnkey solutions to produce custom video from concept to completion. Teamed with top quality video production and other professionals, **FastPitchWeb** is the comprehensive solution for integrating online video into online marketing and business communications.
